

Norhata Sampaco

Web Developer

sampaconorhata@gmail.com ♦ 09159066013 ♦ <https://norhatasampaco-4905a.web.app/> ♦ Philippines, Iligan City

Summary

I am a Web Developer with 3 years of experience, specializing in HTML, CSS, JavaScript, React, Python, Laravel, Django, MySQL, NoSQL, and Firebase. I have expertise in building responsive, user-friendly websites and collaborating effectively with design teams. I am proficient in Git for version control and experienced in client communication. I am dedicated to continuous learning and committed to following industry best practices to deliver high-quality web solutions.

Work Experience

Frontend Developer

Etel Company | February 2025 - Present

- Integrated frontend components with RESTful APIs and ensured seamless data flow between client and server.
- Secured the frontend architecture by handling sensitive requests server-side and applying middleware checks for JWT authentication and token validation
- Wrote clean, reusable, and well-documented code following best practices and team standards.

POS and Inventory Management System

Grospe Polymedic Infirmary Hospital | July 2024

Role: Full-Stack Developer / Assistant Project Lead

- Assisted the project lead in the architecture and planning of the system to ensure it was aligned with the hospital's operational culture and business needs.
- Implemented JWT (JSON Web Tokens) for secure user authentication and authorization, ensuring system scalability and compliance with industry security standards.
- Contributed to both the frontend and backend development, using technologies such as React, Node.js, Express, and MySQL.
- Deployed a fully functional POS inventory system on a VPS server, ensuring secure and scalable infrastructure.

Full Stack Web Developer Intern

Brite Studio Design and Automation | January 2024 – August 2024

- Assisted in developing and maintaining client websites using HTML, CSS, Tailwind, Shopify, Zoho and React.
- Collaborated with design team to implement responsive and cross-browser compatible designs.
- Communicated with clients to gather requirements and provide project updates.
- Contributed to backend development by implementing core system functionalities and ensuring web security through the integration of JWT (JSON Web Token) for authentication.
- Managed version control for web development projects using Git, ensuring code consistency and smooth collaboration across teams.

Education

Bachelor of Science Information Technology

Mindanao State University – Iligan Institute of Technology

2020 – 2024

- JLSS DOST Scholar
- Magna Cum Laude

Key Skills

Programming Languages

PHP, Python, Javascript, HTML, CSS

Libraries & Frameworks

React, Django, Laravel, Tailwind, Bootstrap

Database

PostgreSQL, MySQL, NoSQL, MongoDB

Tools & Platforms

Github, Firebase, Figma

Hobbies & Interests

Internet of Things, Cycling, Hiking, Chess

Certifications

- Web Development for Web Developers | Completed: November 2023
- Introduction to Git and Github | Completed: September 2023
- Cybersecurity Competency Framework | Completed: September 2023
