Summary

I am a Web Developer with 3 years of experience, specializing in HTML, CSS, JavaScript, React, Python, Laravel, Django, MySQL, NoSQL, and Firebase. I have expertise in building responsive, user-friendly websites and collaborating effectively with design teams. I am proficient in Git for version control and experienced in client communication. I am dedicated to continuous learning and committed to following industry best practices to deliver high-quality web solutions.

Work Experience

Online Job System
Student Thesis | November 2024
Role: Full-Stack Developer / Project Lead

- Directed and developed a web application to meet client requirements. Oversaw both the backend and frontend implementation using Laravel, livewire, tailwind and mysql.
- Developed custom features, including send job offer, and worker search functionalities, ensuring a smooth user experience.

POS and Inventory Management System
Grospe Polymedic Infirmary Hospital | July 2024
Role: Full-Stack Developer / Assistant Project Lead

- Assisted the project lead in the architecture and planning of the system to ensure it was aligned with the hospital's operational culture and business needs.
- Helped manage the project timeline, ensuring tasks were completed on schedule and that the team adhered to deadlines.
- Implemented JWT JSON Web Tokens) for secure user authentication and authorization, ensuring system scalability and compliance with industry security standards.
- Contributed to both the frontend and backend development, using technologies such as React, Node.js, Express, and MySQL.

Full Stack Web Developer Intern
Brite Studio Design and Automation | January 2024 – August 2024

- Assisted in developing and maintaining client websites using HTML, CSS, Tailwind, Shopify and React.
- Collaborated with design team to implement responsive and cross-browser compatible designs.
- Communicated with clients to gather requirements and provide project updates.
- Contributed to backend development by implementing core system functionalities and ensuring web security through the integration of JWT (JSON Web Token) for authentication.
- Managed version control for web development projects using Git, ensuring code consistency and smooth collaboration across teams.

Education

Bachelor of Science Information Technology
Mindanao State University – Iligan Institute of Technology
2020 – 2024
- JLSS DOST Scholar
- Magna Cum Laude

Key Skills

Programming Languages
PHP, Python, Javascript, HTML, CSS

Libraries & Frameworks
React, Django, Laravel, Tailwind, Bootstrap

Database
PostgreSQL, MySQL, NoSQL, MongoDB

Tools & Platforms
Github, Firebase, Figma

Hobbies & Interests

Internet of Things, Cycling, Hiking, Chess

Certifications

- Web Development for Web Developers | Completed: November 2023
- Introduction to Git and Github | Completed: September 2023
- Cybersecurity Competency Framework | Completed: September 2023
